letter from the

**DIRECTOR OF EDUCATION
& PUBLIC PROGRAMS**

Dear Friends,

Research about the benefits we receive from nature continue to grab everyone's attention. For instance, the January 2016 National Geographic cover story was titled "This Is Your Brain on Nature." The article gathered much of the current research about the impact of nature on our brains, bodies and emotions. One study of 30,000 residents in Toronto demonstrated that those living in closer proximity to trees had health gains similar to those one sees from a \$20,000 raise!

All of us benefit from being outdoors; children do better in school and neighbors become more neighborly when there is green space around their homes. Even a window view speeds the recovery of hospital patients.

In this publication you can learn all the ways to become involved in nature at the Gardens:

- Become a Friend of Duke Gardens and support the Gardens efforts to spread the understanding of nature's benefits (see page 6).
- Enjoy the many exhibits planned for this season: the Fabulous Fall Mums, the Orchid Exhibit, the Nature Photo Exhibit and the 4th Annual Art and Nature Exhibit (see page 19).
- Stroll the new Beverly and Bert Welch Woodland Garden Overlook and Stream garden.
- Watch for POP-UP Exploration Stations on weekdays and weekends from 1-3 pm (see page 20).
- And please enjoy all of Duke Gardens this season, open every day from 8 am-dusk with no entry fee. Parking fees apply 9 am-5 pm M-F and 1-5 pm Sa/Su.

ONLINE REGISTRATION IS COMING!

The best news of the season is that we are implementing a new registration system that allows for easy online registration. Please watch for additional notices when it becomes available. We are very excited about this and believe it will improve your experience here at the Gardens.

VISITING DUKE GARDENS

Celebrate the seasons and enjoy a beautiful and award-winning garden. You are welcome to enjoy the Gardens at your own pace, and the Visitor Guide & Map will give you information about all four areas of Duke Gardens. Additional information is available; please check at the Doris Duke Center or the Gothic Gate Kiosk.

PLEASE REGISTER YOUR GROUP VISIT: We ask that all groups of 15 or larger register with the Gardens so we may coordinate your activities with other groups scheduled for the same day. Please call 919-668-1707.

GARDEN TOURS: Tours fill up rapidly; we ask for advance reservations by 1:00 pm the previous day. Please call 919-668-1707 to make a reservation.

WALKING TOURS: The best way to explore this garden is on foot, led by a knowledgeable Gardens docent. Walking tours give you the chance to explore all the diverse areas of Duke Gardens at a leisurely pace. Smell the flowers, enjoy the hidden gems and discover your favorite space in the Gardens. We can accommodate any size group with 1 docent per 15 participants.

TROLLEY TOURS: Trolley tours take you on a central path in the Gardens so you see the blooms of the day and learn more about the Gardens' history. This tour cannot encompass the entire Gardens but will give you a beautiful overview. No minimum, but a maximum of 5 people in a shared trolley.

TOUR INFORMATION:

- Offered Tuesdays through Fridays, from mid-March through mid-November.
- 10 am, with an additional tour available at 2:00 pm in spring and fall.
- Allow for 1 to 1½ hours.
- \$10 per person; advance reservations held with payment.
- All trolley tour participants must be seated with a seatbelt; children may not ride on an adult's lap and car seats are not permitted.
- No pets allowed on trolley, with the exception of service animals.

*Help us build the future of Duke Gardens
by becoming a member today.*

SARAH P. DUKE GARDENS IS OPEN FROM 8 AM TO DUSK, 365 DAYS A YEAR.

ADMISSION: NO CHARGE; DONATIONS ARE APPRECIATED.

PARKING: THE FEES FOR PARKING HELP ENSURE THAT SPACES ARE AVAILABLE FOR GARDENS VISITORS.

DORIS DUKE CENTER HOURS: 9 AM-6 PM MON.-FRI.; 9 AM-5 PM SAT.; NOON-5 PM SUN., EXCEPT HOLIDAYS.

GENERAL INFORMATION: 919-684-3698, OR GARDENS.DUKE.EDU.

TERRACE CAFÉ: Serves sandwiches, salads and ice cream. Located in the cottage on the left as you enter the Terrace Gardens via the pergola.

Café hours (seasonal and weather permitting): Mon.-Fri., 11 am-3 pm / Sat., 10 am-4 pm / Sun., noon-4 pm. Groups may arrange lunches at least three days in advance by calling 919-660-3957.

PARKING: Two lots are available just inside the Anderson Street entrance to the Gardens. The fees for parking help ensure that spaces are available for Gardens visitors. Parking fees apply on Monday – Friday from 8 am to 5 pm, and Saturday/Sunday from 1 pm to 5 pm. Parking passes are available for purchase from the machines located in each parking lot. If a machine is malfunctioning, please go to the information desk inside the Doris Duke Center.

Weekend parking update: Duke Gardens now offers weekend parking in two nearby lots. One is south of the Gardens entrance on Anderson St. before the intersection with Campus Drive (pay & park), and the second is at Duke University's H Lot, at the corner of Yearby Avenue & Anderson Street. The H lot is a 5-minute walk from Duke Gardens' main entrance and is open and free 8 am to 8 pm on Saturdays, Sundays and holidays.

Duke Gardens is a museum of plants. Please help us care for this botanic garden and ensure that all visitors enjoy their time here by refraining from the following:

- Climbing trees, swimming or wading in any water
- Using sports equipment, balls, balloons or kites
- Feeding the wildlife, except for approved duck food (purchase in The Terrace Shop)
- Riding bicycles, skates, skateboards, scooters, etc.
- Smoking

Please also abide by the following policies:

- Stay on paths
- Keep dogs leashed (6-foot maximum) and out of plantings
- Portrait photography is by permit only
- Leave plants and all plant parts for everyone to enjoy
- Carry out what you carry in

A full list of policies is posted at entrances and online.

Thank you for your cooperation.

VOLUNTEERING IN THE GARDENS

Be a Force of Nature — Volunteer

Expand your knowledge of the natural world as you help connect people with the Gardens. Volunteers are essential at Sarah P. Duke Gardens, helping to create a better garden and a better community. Bring your interest, energy, knowledge and passion to Duke Gardens and help make each guest's visit more beautiful and enriching.

Whether you are interested in gardening, visitor services, administrative support or education, volunteering at Duke Gardens is a way to give back to your community. You will meet people of similar interests, learn new skills and have fun.

BENEFITS TO VOLUNTEERS:

- The satisfaction of supporting a public garden and furthering the Gardens' mission
- Increased gardening skill/knowledge
- Invitations to Gardens events and monthly lectures
- Education and gift shop discounts

If you are interested in joining the volunteer family at Duke Gardens, contact director of volunteer services Chuck Hemric at 919-668-1705 or chemric@duke.edu to enroll in the next volunteer orientation and complete an application at gardens.duke.edu/support/volunteer.

RAISING EASTERN BLACK SWALLOWTAIL BUTTERFLIES

Lori Carlson, Duke Gardens docent

SATURDAY, SEPT. 17

Learn how to raise eastern black swallowtail butterflies through their winter hibernations for release in your own back yard. Lori will work with you to explore the life cycle and how to care for and feed the butterflies. The class will end with a scavenger hunt for children to find butterflies and host plants, while parents work directly with Lori to complete their understanding of butterfly care. Each child will receive a butterfly box, host plants, a caterpillar or chrysalis and Lori's reference booklet to take home. Together your family can enjoy watching one of nature's many miracles. .

FOR CHILDREN AGES 5-8. ADULT CHAPERONE REQUIRED.

SATURDAY, SEPT. 17, 10:30 AM-NOON • LOCATION: DORIS DUKE CENTER

SCHOOL PROGRAMS

All same-age groups are welcome to register for these programs. Children's groups with a variety of ages should contact us to arrange a program specifically suited to your group.

Sarah P. Duke Gardens School Programs

Our school programs introduce students to the wonders and complexities of our natural world. Each program is age-appropriate and supports the North Carolina Standard and Extended Course of Study. The programs are led by skilled docents familiar with the Gardens and the programs. Please let us know how we can extend your classroom study through a garden visit and be an active partner with your school.

GUIDED GARDENS SCHOOL PROGRAMS:

Available Tuesday through Friday. Correlating standards are listed below. Each program is planned for 1 to 1 1/2 hours, or enriched and extended if your schedule allows. Fee of \$4 per student, with the exception of Garden Walk (\$2 per student); \$40 minimum.

SELF-GUIDED GROUPS IN THE GARDENS: Advance registration is required so we may coordinate your visit with other schedules. Self-guided groups are welcome in all areas of the Gardens except the Blomquist Garden. Tours of the Blomquist Garden of Native Plants, which contains rare and endangered plants, are only available when led by trained Gardens docents. Please register by emailing gardenseducation@duke.edu.

HOW TO REGISTER: Registration is required for all groups planning to visit the Gardens. Thanks for working with us to register your group; collaboration helps us prepare and provide the best experience for your students. We will accommodate your visit on a first-come, first-served basis. Once we reach capacity, those groups without pre-registration may be asked to reschedule their visit.

CHAPERONES: Adult chaperones are required for all youth groups. We recommend a ratio of 3 chaperones per 15 students.

WEATHER: We do take groups out in the rain, unless there is threatening weather that includes lightning; in that case we will reschedule.

CANCELLATION POLICY: You may cancel your enrollment and receive a refund of your fee up to a week before the date of your program. Any program canceled by Duke Gardens will result in a complete refund.

Call 919-668-1707 or email gardenseducation@duke.edu.

SCHOOL PROGRAMS

ALL GRADE LEVELS

- **DISCOVERY GARDEN:** Introduce students to agriculture and sustainable gardening. What's the difference between a fruit and a vegetable? What parts of plants do we eat? See bees, chickens, an orchard, vegetables and fruits, a historic tobacco barn and more.
- **MATH IN THE GARDENS:** Measure, multiply or map your way through the garden. Learn about the different kinds of math garden staff use every day and solve your own garden math problem. Program content will be adjusted to match appropriate grade level standards.
- **A GARDEN WALK:** For larger groups with limited time. A guided walk, planned for 1 hour or less, to introduce students to the four major areas of the garden. Fee of \$1 per student.

PRE-K & K

- **FARM AND FOLK TALES:** Learn about fruits, vegetables and animals in the garden through stories and garden activities.
- **SENSE-ATIONAL STROLL:** Engage all of your senses as you touch, smell, hear, taste and see your way through the garden on this guided walk.
- **BIRDS AND BUTTERFLIES:** Look up to discover the amazing world of winged wildlife in the garden. Through song and movement, learn how birds and butterflies are born.
- **DIRT AND WORMS:** Take a close look at life underground and learn how wiggling worms help the garden grow. What is a worm's life cycle? How do they move? What do they eat? Learn this and more.
- **KNOCK, KNOCK. WHO'S THERE?** Tiptoe through the garden to find signs of animals at home. Learn who lives in the ground and who lives in a tree.

FIRST GRADE

- **HABITAT HUNTERS:** (*meets standard 1.L.1 / 1.L.2*) What do plants and animals need to survive? Go on a scavenger hunt to find animal homes in the Gardens. Find resources and learn how living things get what they need.

SECOND GRADE

- **A BUG'S LIFE:** (*meets standard 2.L.1.2*) What is an insect? Where do they live? Students will learn about and compare the life cycles of garden insects by studying them in their natural habitat.
- **DOUBLE EXPOSURE: Connecting Science and Art at Duke Gardens and Nasher Museum:** (*meets standard 2.E.1, 2.L.1.2*) An innovative program for 2nd grade school groups with a full day experience that connects science and art. Students visit both Duke Gardens and Nasher Museum of Art. To register, go to nasher.duke.edu/k-12/#k-12-tours or contact the Nasher's education office at 919-684-1169.
Free for DPS students. Otherwise standard fees apply.

THIRD GRADE

- **SOIL CITY:** (*meets standard 3.L.2.4*) Explore the world of ants, earthworms, pillbugs and other soil dwellers. Students examine basic soil properties throughout the garden and discover how soil supports the growth and survival of living things.
- **PLANT POWER:** (*meets standard 3.L.2*) Take a trip through the life cycle of a plant. Learn the different plant structures and how they work to help the plant grow and thrive, and see examples of adaptations to extreme environments in our “plant museum.”
- **HAIKU TRAIL INTO THE GARDENS:** (*meets standard 3.C.1*) Collect words on a sensory walk through the Culberson Asiatic Arboretum, and write, revise and edit your experience into a crafted haiku poem.

FOURTH GRADE

- **AMAZING ADAPTATIONS:** (*meets standard 4.L.1.2*) What do desert succulents, tropical water lilies and our local squirrels have in common? Take a walk and see how plants and animals survive using amazing adaptations to their environments.
- **NATIVE TALES:** (*meets standard 4.H.1.1*) Plants have stories to tell. Discover plants used for food and medicine by Native Americans and in modern times in the Blomquist Garden of Native Plants.
- **HAIKU TRAIL INTO THE GARDENS:** (*meets standard 3.C.1*) Collect words on a sensory walk through the Culberson Asiatic Arboretum, and write, revise and edit your experience into a crafted haiku poem.

FIFTH GRADE

- **BEYOND THE POND:** (*meets standard 5.L.2.1*) Students will examine a pond ecosystem and evaluate the water quality by surveying the smallest creatures of the pond. Limited to 40 students.
- **GARDEN FOOD WEB:** (*meets standard 5.L.2*) Producers, consumers and decomposers in the Gardens are connected in a web of life. Students will create a food web from organisms they have seen in the Gardens, and they will learn the importance of all the community's connections.
- **TREE DETECTIVES:** (*meets 5th grade science standards*) Learn the fundamentals of plant identification by examining detailed characteristics such as leaf arrangement and structure. Meet a tree and observe details and record your data with your scientific team.
- **HAIKU TRAIL INTO THE GARDENS:** (*meets standard 3.C.1*) Collect words on a sensory walk through the Culberson Asiatic Arboretum, and write, revise and edit your experience into a crafted haiku poem.

SCHOOL PROGRAMS

MIDDLE SCHOOL

- **THE FOREST AND THE FARM:** (*meets standards 6.H.2.3, AIS.G.2.3*) Explore the Blomquist Garden of Native Plants to learn how hunter/gatherer cultures found their food, and the Charlotte Brody Discovery Garden to learn about civilization's transition to agriculture.
- **HAIKU TRAIL INTO THE GARDENS:** (*meets standard 6.85*) Collect words on a sensory walk through the Culberson Asiatic Arboretum, and write, revise and edit your experience into a crafted haiku poem.
- **BEYOND THE POND:** (*meets standards 6.L.2.1, 8.E.1.3*) Students will examine a pond ecosystem and evaluate the water quality by examining benthic macroinvertebrates. Limited to 40 students.

HIGH SCHOOL

- **GENERAL TOUR:** Contact gardenseducation@duke.edu

I NEED A PLAN: Garden Fundamentals

Each different section of this program will help you plan your garden. Register for one or all sections.

BOOSTING THE BLOOM: PERENNIAL GARDENS • 2 Tuesdays, Sept. 27 & Oct. 4

Hilary Nichols, garden manager, SEEDS, Inc.

Learn to extend the blooming season and keep your perennial plants dense and perky! This class will focus on perennial border design, plant placement and maintenance strategies so you get the most from your flower garden. Come ready to get your hands dirty as we practice techniques including pinching plants back, cutting back, staking, and when (or when not) to fertilize.

THE MUSICAL GARDEN • 2 Tuesdays, October 11 & 18

Hilary Nichols, garden manager, SEEDS, Inc.

Plants are musical as well as beautiful! Make sound a goal in your planting plan and add the sense of sound into your garden experience. Think of plants as instruments with active plants whispering their songs of stems, leaves and pods shaking in the breeze. Other plants add the musicality of bird songs and the hum of insects by providing food or nesting sites. Learn about musical plants in this class, spending time outdoors in the Gardens, and indoors discussing the best ways to design for the highest musical impact.

EASY STEPS TO A RESILIENT GARDEN • 2 Tuesdays, November 1 & 15

Jan Little, director of education and public programs, Duke Gardens

Plan next year's garden to be more resilient and sustainable. Looking at the garden through nature's lens we will assess your soil, water, drainage, land history and existing plants. After evaluating those conditions each participant will develop a sustainability strategy for their home garden.

CREATE A BIRD-FRIENDLY GARDEN • 2 Tuesdays, February 7 & 14

Lauri Lawson, Niche Gardens

Birds can bring color, life and song to your garden. Lauri will review plants that are favored by both local and migratory songbirds, as well as their other shelter needs. Then you will have the chance to create a plant list suitable for your garden conditions.

TUESDAYS, 6:30-9 PM

LOCATION: DORIS DUKE CENTER

PARTICIPANT LIMIT: 15

FEE PER SESSION: GARDENS MEMBERS \$48; GENERAL PUBLIC \$60.

FEE TO REGISTER FOR MULTIPLE SESSIONS \$43/\$54 PER SESSION.

JOIN US FOR A GARDEN-THEMED TOUR OF RICHMOND, VIRGINIA, THIS OCTOBER

New!

We begin our visit at Lewis Ginter Botanical Garden with a guided tour of this historic 50-acre property of spectacular gardens, including a classical domed Conservatory. Enjoy lunch in a semi-private room, a guided tour, and independent time to re-visit your favorite garden locations.

In late afternoon we move to the Linden Inn Hotel, made up from seven renovated historic row houses, featuring 12' ceilings, historic charm and contemporary amenities, with rooms opening to a garden veranda. Check in for the night, get settled and enjoy high tea in a private room reserved just for us. Friday dinner is on your own; list of restaurants within walking distance provided.

Saturday morning breakfast is provided. Then we visit Maymont and take a step back to the Victorian era. We tour the opulent 33 room mansion of James Henry and Sallie May Dooley, a spectacular example of the Gilded Age. Afterward, a staff horticulturist accompanies us on a tour of the formal Italian garden, the Japanese Garden, herb garden, and Arboretum.

We lunch at the Virginia Museum of Fine Arts and then enjoy the E. Claiborne and Lora Robins Sculpture Garden before boarding the bus for return to Durham. We arrive back at Duke Gardens no later than 6 pm.

An informal group independent of Duke Gardens, the forum meets once a month to enrich its members' gardening knowledge and skill. Sponsored in partnership with the N.C. Cooperative Extension: Durham County Center

ALL THE WORLD'S A MUSHROOM: THE LARGEST ORGANISM ON EARTH • September 20

Cheralyn Schmidt, area agent, agriculture – horticulture, North Carolina Cooperative Extension, Durham County Center

Little did you know that Fungus is Humongous! Cheralyn will take us on a journey to understand the role of fungi in nature and discuss the delicious culinary mushrooms available in our region.

WILD AND NATIVE EDIBLE PLANTS • October 18

Marc Williams, executive director, Plants and Healers International

The earth has fed people and other animals as long as we have existed. But most of us do not connect the 'stuff' that grows outdoors (beyond farms) with our dinner tables. Marc will take us on a whirlwind tour of edible plants in our own back yards.

GARDENING UNDER FUTURE WEATHER CONDITIONS • November 15

Ryan Boyles, director, State Climate Office of North Carolina

Climate change predictions are now becoming possible at community, or local scales. But how do we address and adapt to these? Ryan Boyles will talk about the science behind climate change projections and how gardeners can take steps today to adapt for the future.

CONSERVING ESSENTIAL WILDLIFE HABITAT • December 13

Laura Stroud, conservation and stewardship associate, Triangle Land Conservancy

We have all heard the statistics—one of every three bites we take are dependent upon a pollinator. Laura joins us tonight to talk about where wildlife and pollinators live in our communities and how we can help them thrive. Hear about conservation efforts in the Triangle and how essential preserves and green corridors are to our health and wellbeing.

AN EMERALD GARDEN OF MOSS • January 17

Annie Martin, Mossin' Annie, author and moss gardener

Moss adds a luxurious, year-round, green to our gardens, and "Mossin' Annie" is an expert. Join us to learn more about moss and see inspirational moss gardens from around the world. Annie, a North Carolina native, will cover botanical information, planting and maintenance, as well as discuss legitimate sources for moss. Annie's book "The Magical World of Moss Gardening" will be available to purchase and get signed.

ERGONOMIC GARDENING AND TOOLS • February 21

John Harrelson and Charles Murphy, Durham County master gardeners

Gardening is the number one pastime in the U.S. More than 400,000 outdoor garden tool-related injuries are treated in emergency rooms each year. Master gardeners John and Charles discuss ways to protect yourself from potential gardening hazards.

YOUtopia

Sarah P. Duke Gardens is pleased to announce our participation in YOUtopia, a program that assists America's public gardens in reducing their climate impact. Created by the American Public Gardens Association and ecoAmerica, this program communicates the goals and successes of partnering public gardens. Watch for additional information at Duke Gardens about the increased sustainability of our gardens.

LET'S MOVE!

"Let's Move!" is a comprehensive initiative launched by First Lady Michelle Obama. It is dedicated to solving the problem of obesity within a generation, so that children born today will grow up healthier and able to pursue their dreams. Working with parents, caregivers, schools, public officials and communities, Let's Move! is about putting children on the path to a healthy future during their earliest months and years. Let's Move! Museums & Gardens will focus on interactive exhibits, after-school and summer programming and food service that help young people to make healthy food choices and be physically active.
